

## Brink's Canada Ltd. Case Study

### Protecting your world

#### Project Overview

Brink's is the world's largest cash management company including cash-in-transit, ATM replenishment and maintenance, international transportation of valuables, cash management and payment services. Its customers include financial institutions, retailers, government agencies (including central banks), mints, jewellers and other commercial operations around the world. Brink's has a global network serving customers in more than 100 countries and employs more than 62,000 people across 1,200 facilities and a fleet of more than 13,000 vehicles.

Embracing the latest LEAN methodologies and risk-based principles Brink's decided to take a collaborative approach in developing a truly best in class solution with Chubb's in-house integration experts.

#### Customer Needs

- Enhanced operational efficiency and process improvement at its facilities
- Collaborative development of a tailor-made solution making use of Chubb's security expertise
- Maintenance of three-factor security design

#### Solution and Benefits

Chubb worked closely with Brink's' Regional Security Director Kyle Eltherington, based in Toronto, Canada, to develop a system that combines existing surveillance and monitoring technologies in an unprecedented way.

Security cameras, analytic software and biometric scanners connect to Chubb's central interlock system to ensure the safety of Brink's employees while improving authorized access into the secured facility.

The implementation of this innovative solution has resulted in increased operational efficiency across Brink's facilities while improving security for their employees.

This initiative illustrates both Chubb and Brink's future-oriented focus on leveraging innovation and technology investments to drive long-lasting value.

#### Customer Feedback

Kyle Eltherington, Regional Security Director at Brink's Canada Ltd., commented: *"We were very pleased with the adaptable approach taken by Chubb for this project. It was vital for us that they be open-minded with the use of their technologies, but still brought their wealth of security expertise."*

*Martin Deslauriers, VP Corporate Security at Brink's Canada Ltd., added: "Brink's has more than 160 years' experience in developing value-added secure logistics solutions for our customers, and were delighted with the collaboration with Chubb."*
